

MAJ. DOTT. ENRICO DI LUISE

PERSONAL INFORMATION

Name, Middle Name, Surname **ENRICO IGNAZIO DI LUISE**
Telephone OMISSIS
E-mail
Nationality
Date of birth
Current addresses

WORK EXPERIENCE

Dates	November, 2004 - onwards
Occupation or position held	<i>Major of Arma dei Carabinieri, Reparto Carabinieri Investigazioni Scientifiche (R.I.S.)-Messina – (Forensic Investigation Dept.), Head of S.I.O. (CSI Team) and Vice Head of Molecular Biology Laboratory. Vice Head of Molecular Biology Laboratory.</i>

Main activities and responsibilities	<p>MANDATORY ACTIVITIES and TASKS:</p> <ul style="list-style-type: none"> - Commander of Sezione Intervento Operativo – S.I.O. [CSI Team or Evidence Response Team (ERT) leader] - Emergence First Responding Officer. - Vice Head Forensic Biology Lab. - Entitled as Forensic Lab Director (since 2013) in Molecular Biology. - DVI team leader. - Forensic Expert for Courts and Prosecutor Offices in their areas of competence (Sicily and Calabria) concerning DNA testing and Molecular genetics. Expert witness activities for public prosecutors and general attorneys for courts of justice among the south of Italy, mainly concerning preliminary investigations, criminal prosecution and re-examination of previous consultancies (trials in Courts of Appeal). - QA/QC Lab Manager (RQL). Internal Auditor and Supervisor within the quality certification and reference person for laboratory accreditation (UNI EN ISO 9001:2015; UNI EN ISO 17025:2017). - Planning and supervision of the overall technical and operational activities of the molecular biology laboratory including: casework evidence examination and bio-molecular analysis, data interpretation, internal testing protocols. - Planning and supervision of the internal blind test and of the annual collaborative ring test. - Internship Supervising for military personnel during. - Planning manufacturers supply for laboratory disposables, reagents and kits. Planning and supervision of instruments maintenance programme performed by the manufacturers. -- Technical updating and applied research in the field of forensic genetics. <p>TEMPORARY ACTIVITIES:</p> <ul style="list-style-type: none"> - ENFSI DNA WORKING GROUP Member – Arma dei Carabinieri RaCIS representative - Lecturer for Arma dei Carabinieri within the framework of the EU Project CT-Mena - Counter-terrorism in the Middle East and North Africa, October 2019, Rabat Morocco. - Head of Forensic Trainers Team for Libanese Army Force and Libanese Law enforcement within the framework of the bilateral Mission MIBIL (Beirut, august-october 2017). - Interim Commander of Drugs, Explosives and Inflammable Laboratory (temporary assignments among 2005-2008) - Interim Commander of Ballistic Section (temporary assignments among 2005-2007) - Vice Head of the D.V.I. (Disaster Victim Identification) Unit at "EUROSOT 2005 - Sicily" (International Exercise of Mass Fatality Emergence - Ministry of Civil Protection, Presidency of the Council of Ministers and European Commission – J.M. Barroso Presidency) - Lecturer of “Crime Scene Processing Techniques” in the Postgraduate Master Course in “Forensic Science” - University of Messina, Faculty of Science in cooperation with R.I.S. Carabinieri di Messina. - Responsible and lecturer at the Official Training Course in “Crime Scene Processing and Forensic Investigation” reserved to law enforcement personnel belonging to “Arma dei Carabinieri” within operative sections in South of Italy (Reggio Calabria , April-June 2007)
Name and address of main employer	R.I.S. Carabinieri , S.S.114 – Km 6,400, 98128 – Tremestieri, Messina (Italy)
Type of business or sector	Military Law Enforcement Corp with Civil Police duties – C.S.I. and Forensic Laboratory Dept. (further information on Arma dei Carabinieri on www.carabinieri.it or wikipedia)

Dates	2001- 2004
Occupation or position held	Fellow student
Main activities and responsibilities	<ul style="list-style-type: none"> - Responsible of the research project “<i>Candidate marker genes to monitor gene flow between Genetically Modified, NON Genetically Modified and Organic Crop</i>” – Supervisor Prof. Dr. Marc De loose - Responsible of the research project (MSc thesis project) “<i>Development of a Multiplex Event-Specific PCR to Detect Genetically Modified Corn in Foodstuff</i>” – Supervisor Prof. Dr. Marc De loose/Dr. Isabel De grieck. - fellow student/Lab technical assistant “<i>Monitoring Gene Flow in GM oilseed rape</i>” – Project Responsible Dr. Isabel De grieck
Name and address of employers	<p>Department of Plants Genetics and Breeding (DvP), Agricultural Research Center (CLO), Melle, Belgium – Director Prof. Dr. E. van Bockstaele Faculty of Agricultural Science - University of Gent (Belgium) Faculty of Agricultural Science - University of Catania (Italy)</p>

Type of business or sector Research Center – Belgian Ministry of Agriculture
Faculty Department

EDUCATION AND TRAINING

Title of qualification PhD

Dates Academic years 2012-2015

Degree Course PhD curriculum in Cell Biology and Biotechnology.

Principal subjects/occupational skills covered Biology, Chemistry, Biochemistry, Cytology, Histology, Genetics, Molecular Biology and Applied Forensic Biotechnology,

Final thesis project: "Degradation of Human Tissues in water environment: Limits and Solutions for Forensic DNA analysis"

Name and type of organisation providing education and training University of Messina – Faculty of Biology

Title of qualification PhD

Dates 2009 – 2010 (military academic year)

Name of the course Professional and Technical Training Course (S.P.E. course)

Principal subjects/occupational skills covered **Professional Techniques and Law curriculum** including: General Military Education and Training, Military tactics and strategy, Military Law, Military Police duties, Elements of Civil Law, Constitutional Law, Criminal Law, Criminal Procedure, Investigation Techniques and tactics, Judicial Police Procedure; History of the Arma of Carabinieri, Weapon Equipment (both Civilian and Military) and Individual Combat Training ; Weapons Usage training.

Scientific and Criminal Investigations Techniques curriculum including: Medico-legal investigation, Immuno-chromatographic assay for tissue identification, DNA testing techniques; Crime Scene Processing, fingerprint identification techniques; drug chemistry-toxicology analysis; ballistics and GSR analysis; fibres, paints and glasses forensic analysis; phonics and graphology; forensic photography and imaging; forensic psychiatry, cyber-crime and computer forensic science, statistics and forensic databases.

Name and type of organisation providing education and training **Officers Carabinieri School - Military Academy of Arma dei Carabinieri -** Commander Gen. C.A. U. Zottin.

Title of qualification awarded - Military Rank: **First Lieutenant/Captain**

Dates Academic years 2005 – 2008

Degree Course Bsc (Hons) Degree in Biology.

Principal subjects/occupational skills covered Biology, Chemistry, Biochemistry, Microbiology, Cytology, Histology, Human Anatomy, Compared Anatomy, Human Physiology, Botany, Sistematic Botany, Genetics, Molecular Biology and Applied Biotechnology, Human Nutrition, Chemistry and Flavours of Nutrition

Final thesis project: "Cell and Tissue postmortem changes"

Name and type of organisation providing education and training University of Messina – Faculty of Biology

Title of qualification awarded Italian Degree (corresponding to a BSc (Hons) with an average exam mark of 29/30 and a final degree mark of 110/110 "*Summa cum Laude*" (i.e. maximal score with honour)

Dates September – December, 2006

Name of the course	Forensic Entomology Course (ENT 890 Section 730)
Principal subjects/occupational skills covered	The role of insects in crime scene investigation; Insect of forensic importance; Arthropods identification and classification; Insect succession on carrion; Body Decomposing factors; P.M.I. Estimation; Statistical data analysis of insect growth and development; Entomotoxicology; DNA techniques in forensic entomology; Bloodstain Pattern Analysis (B.P.A.) and insect alteration.
Name and type of organisation providing education and training	Michigan State University – Responsible Prof. Dr. Richard W. Merritt e Dr. Ryan Kimbirauskas, Department of Entomology.
Title of qualification awarded	NA – Course passed

Dates	Academic year 2004 – 2005
Name of the course	7th Professional and Technical Training Course (entitled to the gold medal of honour "Ten. Maggio Ronchey")
Principal subjects/occupational skills covered	Professional Techniques and Law curriculum including: General Military Education and Training, Military tactics and strategy, Military Law, Military Police duties, Elements of Civil Law, Constitutional Law, Criminal Law, Criminal Procedure, Investigation Techniques and tactics, Judicial Police Procedure; History of the Arma of Carabinieri, Weapon Equipment (both Civilian and Military) and Individual Combat Training ; Weapons Usage training. Scientific and Criminal Investigations Techniques curriculum including: Medico-legal investigation, Immuno-chromatographic assay for tissue identification, DNA testing techniques; Crime Scene Processing, fingerprint identification techniques; drug chemistry-toxicology analysis; ballistics and GSR analysis; fibres, paints and glasses forensic analysis; phonics and graphology; forensic photography and imaging; forensic psychiatry, cyber-crime and computer forensic science, statistics and forensic databases. Apprenticeship: R.I.S. Carabinieri Department of Rome and Messina. Exhibits examination, Immuno-chromatographic assay for tissue identification and DNA testing on different type of evidence.
Name and type of organisation providing education and training	Officers Carabinieri School - Military Academy of Arma dei Carabinieri - Commander Gen. C.A. Vittorio Barbato.
Title of qualification awarded	- Military Rank: First Lieutenant - - First Classified in the overall 7th Course ranking; “Course leader” (Italian “Capocorso” – i.e first classified after national competition + assignments maximal score) of the 7th Professional and Technical Training Course

Dates	Academic Years 1996 – 2003
Degree Course	Italian Degree in Biotechnology, <i>curriculum studiorum</i> “Food Science and Technology”.
Principal subjects/occupational skills covered	Biology, Chemistry, Biochemistry, Microbiology, Food Technology, Environmental Security, Systems and Quality Self, Agricultural Economics and Law, Technological Process in Food Industry, Food and Human Nutrition. Final Year <i>Curriculum Studiorum</i> subjects: Biotechnology, Chemistry and Flavours of Nutrition Erasmus Student Exchange Programme at the University of Gent – Belgium, from first and second semester (academic year 2001-2002): Applied Molecular Biology, Agricultural Biotechnology, Biotechnology of fermentation, Food Chemistry. Final thesis project: “Detection of Genetically Modified Traits in Maize by Means of Event-Specific Multiplex PCR” designed and developed at CLO-DvP, Gent (Belgium). Selected for oral presentation at the 6 th Biotechnology National Congress (Padova 4-6 giugno 2003)
Name and type of organisation providing education and training	University of Catania – Faculty of Agricultural Science University of Gent (Belgium) - Faculty of Agricultural Science
Title of qualification awarded	Italian Degree (corresponding to a BSc (Hons) + a MSc) with an average exam mark of 30/30 and a final degree mark of 110/110 “ <i>Summa cum Laude</i> ” (i.e. maximal score with honour)

PERSONAL SKILLS AND COMPETENCES

MOTHER TONGUE **ITALIAN**

OTHER LANGUAGES

ENGLISH

Oral, written, comprehension competence

Excellent

- Certification - T.O.E.F.L. – C.B.T. SCORE 270 obtained at University Politecnico di Milano (Milan)
- Cambridge FIRST Certificate

SPANISH

Oral, written, comprehension competence

Excellent (oral and comprehension), good /written)

- Certification Diploma Escuela Cervantes
- Note Developed mainly through summer jobs in Spain

Molecular Biology Technical Competence:

- Cloning of genes (Extraction, Purification e Precipitation of DNA, Ligation techniques)
- Costruction of mutant plasmid (Promega; TOPO, Invitrogen).
- Extraction of protein (in denaturants or not), SDS-Page, Purification through Affinity Chromatography, Dot-Blot, Western-Blot.
- Immunology: Maintenance and growth of Ibridom, preparation of Monoclonal Antibodies, Immunoprecipitation (cellular lysis, training complex Ag-Ab, Purification by that complex on Protein A-Sepharose), SDS-Page.
- Immuno-histochemistry techniques and Immunofluorescence techniques.
- Polymerase Chain Reaction (Gradient, Nested, Touch Down, Multiplex, Real Time).
- Main Primers Design and Annealing Software.
- **Forensic Biology and Genetics:**
 1. Generic and Immuno chromatographic assay diagnosis: sperma (PSA test, PAP-Test, Zinco Crime scope, RSID-IF), blood (TMB Combur Test, Luminol, FOB and Obt-Test, RSID-IF), saliva (α -Amilasi, RSID-IF).
 2. Extraction Techniques: Organic extraction (both phenol-chloroform and beta-mercaptoethanol based), Chelex, Qiagen silica column, DNA-IQ system, CTAB-based method, ChelexTM resin, IQ, ChargeSwitch resin (from various substrates and tissues).
 3. Laser Microdissection technique and Low Copy Number DNA Analysis techniques.
 4. PCR Amplification: AmpFI-Identifiler Kit, AmpFI-Yfiler Kit; AmpFI-Minifiler Kit, NGM. Real Time Quantifiler and Quantifiler Duo kit (Applied Biosystem)
 5. Genotyping Instruments: 310, 3100-3100Avant, 3130xl, 3500, 3500xl Genetic Analyzer(Applied Biosystem)
 6. Genotyping Software: GeneScan, Genotyper and GeneMapper v.3.2/IDX;
 7. Parentage and kinship analysis: Familias, LRMix, GenePop, ProbMax, Cervus 3.0.
 8. Laboratory Management software: Easytrack, SQL - L.I.M.S. – Laboratory Information Management System (AB)

General Computer Science competence: Expert user

Windows 10 , 8, 7, 95/98/2000/XP/Vista, Ubuntu Linux (Basic user)Softwares: Word, Excel, Access, Power Point, Quark Express, Corel, Adobe, Outlook, Explorer and Mozilla Firefox.

Audio & Video Streaming Competence: Expert user

Software: Pinnacle Studio 9, Corel Draw 11, Adobe Photoshop 7

Crime Scene Software competence: Basic user

S.A.R.T. (Sistema Automatico per i Rilievi Tecnici – *Automated System for Scene Processing*)

3D animation Crime Scene reconstruction (MAIA, 3D Studio Max)

Laser Scan, GPS and Circular Photogrammetry (Spheron VD-HRD- One Click software, I-site Software, SparView software)

Driving License: B car driving license; military vehicles driving license.

Additional Certified Competences:

- Nuclear Biological Chemical Radiological (CBRN) Defense Certified Operator (Red Cross Military Corp).
- Military Parachute Certificate (National Association of Parachuting – Certified by Army Parachuting Centre, Ministry of Defense)
- Open Sea Lifeguard and Basic Life Support Certificate (Italian Swimming Federation – F.I.N.)
- Kickboxing and self – defense II level instructor (Italian Kickboxing Federation - F.I.Kb – World Association Kickboxing Association, W.A.K.O.)

COURSES

“Combined DNA index System Training” Course, held by FBI – Laboratory Division – CODIS Unit personnel and Criminal Police Central Directorate of Italian Ministry of Interior representatives, Rome, August 26-30th, 2013.

"Next Generation Forensic Solution" held by Applied Biosystem representative, 26/02/2014

“Forensic statistics” held by Arma dei Carabinieri trainers, 03/02/2010

“SOFTWARE GENEMAPPER ID-X1.1.1” held by Applied Biosystem representative, 25/02/2010

“Management of hazardous waste” held by ARPA Italian environmental agency, 13/03/2013

“Genemapper ID-X Software v.1.1”, expert system, profile comparison and mixture modules features held by Applied Biosystem representative, 25/02/2010

“3500HID GENETIC ANALYZER & GENE MAPPER IDX V1.2” held by Applied Biosystem representative, 29/02/2012

“SOFTWARE FREEZEWORKS BASIC Course” held by external consultant, 28/01/2014

“MINITAB TRAINING” Course, held by external consultant 11/03/2014

“Use e maintenance of genetic analyzer 3500xl” (AB), Data Collection Software, Library, Maintenance Menu, Calibration e performance check, Gene Mapper IDX: expert system, Profile comparison held by Applied Biosystem representatives, 16/04/2014

“BPA (BLOOD PATTERN ANALYSIS) Practical Course” held by external consultant of Arma Carabinieri, 01/12/2009

“Quality management Basic Course” held by external consultant, 08/03/2011

“Certification maintenance and traceability in UNI/ISO 9001:2008, UNI/ISO 17025, held by external personnel.” 03/06/2013

“Internal Auditor Course for Quality System ISO 9001:2008” held by external consultant 11/12/2013

“3° QIAGEN Investigator Forum” - “Validation and Quality Standards Experiences in casework” – “New and emerging technologies for forensic analysis” – “Mixture Interpretation DNA Interpretation Methods and Population Genetics” held in Hilde (Germany) at Qiagen Factory 01-02/04/2014

“Crime Scene Investigation Retraining course” for Italian State Police officers organized by I.C.A.A. (International Crime Analysis Association). Milan, June 13th, 2008.

“Interrogation Techniques Training Course” organized by I.C.A.A. (International Crime Analysis Association). Palmi (RC), May 17th, 2008.

“Crime Scene Investigation Basic Course” organized by I.C.A.A. (International Crime Analysis Association). Director: Prof. Marco Strano. Rome, October 27-28th, 2007

“Criminal Profiling Basic Course” organized by I.C.A.A. (International Crime Analysis Association). Director: Prof. Marco Strano. Reggio Calabria, June 2nd, 2007

“Sect Crime Basic Course” organized by I.C.A.A. (International Crime Analysis Association). Director: Prof. Marco Strano. Reggio Calabria, June 3rd, 2007

Certification Course “Forensic DNA analysis: ABI Prism 7500 Real Time PCR System and Quantifiler kit” organized by Applied Biosystem. Messina May 3rd, 2007

Full Immersion Training “Child abuse diagnosis and strategy of intervention” organized by I.C.A.A. (International Crime Analysis Association). Director: Prof. Marco Strano. Turin, March 17th,2007

European Credit in Medicine (ECM) Course “Convegno di Criminologia Forense (Forensic Criminology Second Meeting) – Sects, between psychopathology and social disadvantage” organized by S.I.A.E.C.M. (Società Italiana per l’Educazione Continua in Medicina, *Italian society for the education in medicine*) at Centro di Cultura Scientifica Ettore Majorana. Erice (TP), May 11st-13rd, 2006.

Certification Course “3100 DCV GM ID 3.2 Forensic Training” organized by Applied Biosystem. Messina, April 18-19th, 2005.

LECTURES

Di Luise E. Aquatic DNA degradation: limits and challenges for forensic typing. H₂O Criminilastics & Pathology Symposium, Catanzaro, Nov. 18-21th, 2010

Di Luise E., A study on short tandem repeat ACTBP2 (SE33) in a sicilian population sample. – Italian Forensic Geneticist Society (Ge.F.I.) 21th Congress Meeting, Lipari 5-7th September 2006

Di Luise E., Real Crime Scene Processing: application to forensic entomology. Lecture in the meeting “Reparti di Investigazione Scientifica – Tra fiction e realtà” (*Forensic Investigation Between fiction and reality*) organized by Natural History Museum of Capri (Naples). 12nd March 2008.

Di Luise E., “Detection of Genetically Modified Traits in Maize by Means of Event-Specific Multiplex PCR”. 6th National Biotechnology Congress, Padova, June 3-6th, 2003.

PUBLICATIONS

BOOKS

Gli insetti nelle scienze forensi (P. Magni e E. Di Luise) in Saravo L.; Curtotti D., Manuale delle investigazioni sulla Scena del Crimine, Giappichelli Editore, I-II Edizione. (*Criminal Investigation Handbook*).

Le tracce orfane. Botanica, micologia, zoologia, microbiologia e geoscienze nel mondo forense (P. Magni e E. Di Luise) in Saravo L.; Curtotti D., Manuale delle investigazioni sulla Scena del Crimine, Giappichelli Editore, I-II Edizione. (*Criminal Investigation Handbook*).
